### How to download app?

- Click on the given buttons of App Store and Google Play
- Or scan the given QR code
- Or search for HCL Healthcare App in App/ Play store

CLICK HERE

### How to Login?

- Use your HCL Healthcare customer portal user id and Password to login
- You can reset/recover it with the given link “FORGOT USERNAME OR PASSWORD” under Login option (There can be a lag of 2 to 5 mins in getting an OTP through email/ SMS)
- If you have never logged in on customer portal, please contact helpline number i.e., **1800-103-7070** to get quick help for your user id & password.
- Once you login, set a 4-digit pin for easy access to Health Information

### Add family accounts:

- After logging in, click on your name
- Click on Link Another Account
- Click on “Myself” written above login
- Select the relationship with the person whose account you want to add
- Enter the username and password of that person
- After that, you will be able to access the account details by just a flip
